

# VICTOR BERUMEN

## 2022 San Pablo Employee of the Year

Victor started his tenure with the City of San Pablo in March 2005 as the youngest maintenance employee employed at that time. He is currently a Maintenance Supervisor in charge of building maintenance throughout the City.

Victor is definitely one of the “go to” maintenance workers and is always eager to take on a project no matter how big or small. He continues to seek out other opportunities to make him a valuable employee to the City. From providing guidance to maintenance staff to helping with all the after-hours facility rentals and events, Victor is such an asset to every department and employee in the City.

Victor takes his work seriously. He is very dependable and produces quality work. He even comes in on weekends to help with doors that will not close or open, lights that will not turn on or off, and everything in between. He serves as a role model for the rest of the Maintenance team and is a valuable resource in emergencies.

Other than being a great employee, Victor is an amazing person. He will do things like help you retrace your steps when you lose your keys or bring you hot chocolate when working a community event on a rainy day. Victor is always there to help and always with a smile on his face and a great amount of patience.

Victor’s dedication, passion and pride for what he does shows in everything he does. We all breathe a sigh of relief knowing Victor is on the job.

Congratulations Victor!
